Product Overview

The FS10 Electrical Isolation Switch adds electrical isolation to the aerosol generators as required by MGN 657.

The FS10 Electrical Isolation switch allows remote activation of 'Isolate' or 'Hold' functions without direct access to the FS10 panel.

It includes green and yellow LEDs to indicate status and is continuously monitored by the FS10 system.

Deactivation of isolate mode can only be done where it is activated.

Key Features

- Activates 'Isolate' or 'Hold' modes
- In 'Isolate' mode, both wires from the aerosol generator are connected to GND
- Ongoing activation can be cancelled by holding the button for 20 seconds
- LEDs show ON / ISOLATED status
- System monitored – fault if disconnected
- Compact wall-mount enclosure

Technical Specifications

Parameter	Value
Dimensions (WxHxD)	151 x 190 x 71 mm
Weight	0.470 kg
IP Rating	IP66

Ordering Information

JKE Part No.: 0315
