Product Overview

The FS10 Remote Panel is an elegant, slim panel made of brushed aluminum, black anodized.

It allows your bridge and cockpit to appear simple, streamlined and elegant.

The FS10 Remote Panel is an addition to the FS10 Main Unit or the FS10 Main Unit, Flush Mounted.

When using the FS10 Remote Panel on/near the bridge, you can just place the FS10 main outside the protected area, use the FS10 main as a connection box and only a 4-wired cable is going to the FS10 Remote Panel on the bridge.

All necessary information is shown on the FS10 Remote Panel.

Key Features

- Extension of primary functions from FS10 Main Unit & FS10 Main Flush Mounted
- All necessary information is given.
- Only connected via a 4-wired twisted pair cable.
- Do not need much space.
- Elegant and slim design.
